ECONOMY FLOOR

# BASEAIR

A Budget Friendly Floor

BaseAir is an **economy flooring solution**. Made from a polypropylene core (PP) and covered with a TPO anti-sliding topskin, BaseAir is an appropriate solution for low impact applications. Because of its non-rigid structure BaseAir may be susceptible to damage from heavyweight freight or extensive overuse.

## AFFORDABLE PROTECTION THAT DOESN'T BREAK THE BANK.

BaseAir is an attractive budget solution for your van. Despite not boasting the same juggernaut qualities as StabiliGrip, it's still able to withstand wear and tear. Plus, its anti-slip topskin is perfect for ensuring safety in all weather conditions.

## LOW-DENSITY HONEYCOMB INTERIOR STRUCTURE

The interior core of BaseAir is comprised of a honeycomb, low-density polypropylene structure.

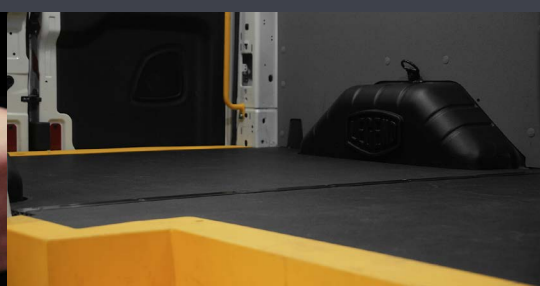

The honeycomb pattern allows for impressive weight resistance while remaining lightweight. This is due to the hexagonal shape efficiently distributing stress and absorbing energy during impact.

In addition, polypropylene has a high heat resistance metric, making it durable in high-temperature environments.
